

Dear Professor Bonefeld-Jørgensen,

We wish to thank you for your support to the EPHAR congress 2020 in Prague, however, we are aware that there is 0 abstracts submitted by non-invited speakers from your country, which excessively underrepresent the scientific activity within your society that belongs among well recognized societies in the entire EPHAR network.

The EPHAR Executive committee discussed this fact on their recent meeting and we wish to ask you to personally promote the EPHAR congress among your members in order to achieve appropriate representation of your society at the EPHAR congress (<https://www.epar2020.org/>). The deadline for abstract submission has now been extended until April 5, 2020 and the early registration deadline will also be extended to allow your society members discounted registration.

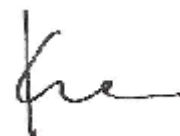

We would be happy to assist you and your colleagues with any issue you may face with the participation on the EPHAR Congress.

See you in Prague in early July,

Ondrej Slanar

President of EPHAR2020 OC

Mojca Kržan

President of EPHAR
